

SUMANGALTM

A TRADITION OF QUALITY.

SUMANGAL GROUP OF COMPANIES

We are pleased to introduce Sumangal Group of Companies, a World Class leading manufacturer of various types of Castings and Forgings in India. Founded in 1978, the company began operations with two units - one company for zinc pressure die castings and the second company for wrist watch cases. Over the years, under its vast and growing umbrella, today Sumangal Group of Companies finally operates six companies.

MANUFACTURING AT A GLANCE

27,000 Sq. Ft. Integrated Manufacturing Facility.

Our state-of-the-art facility is equipped with all critical machinery required for furniture hardware manufacturing, enabling us to maintain control over quality, timelines, and customization.

INFRASTRUCTURE & PRACTICES

Machining & Component Processing

High-precision machines ensure dimensional accuracy and consistency across all hardware components.

Assembly Operations

Dedicated assembly lines for Mortise Handles, Cabinet Handles, Knobs, and customized OEM products.

In-House PVD Coating Facility

Advanced PVD coating setup enabling durable finishes, uniform coating thickness, and better lead-time control.

Testing & Validation

- Cycle testing for functional durability
- Finish and coating performance checks
- Process-based quality assurance at every stage

Packaging & Dispatch

OEM-ready packing systems designed to meet customer branding, labeling, and logistics requirements.

BUILT ON LEGACY.

DRIVEN BY MANUFACTURING EXCELLENCE

The Sumangal Group began its industrial journey in 1978 with a clear focus on metal manufacturing. Over the decades, the Group expanded across casting, forging, precision machining, and die casting—building deep technical expertise and process mastery.

Sumangal Technocast was established to apply this manufacturing strength to OEM hardware, specializing in Mortise Handles, Cabinet Handles, Knobs, and newly developed Grape Bars and Hinge Bars. Today, we manufacture for leading Indian and global brands, supplying products under their labels with complete focus on quality, consistency, and scale.

Our growth has been driven by engineering discipline, infrastructure investment, and long-term OEM partnerships.
